

AVSPNI & NIVA Joint Autumn Meeting

Wednesday 28th September 2016

Brookhall, 2 Horse Park, Magheragall, Lisburn

(supper at 7pm, presentation 8pm)

Puppy problems: Are breeders and vets doing enough?

Two well established speakers in their field will discuss dog breeding and any associated issues which may arise.

An experienced commercial breeder will discuss the challenges facing the dog breeding industry and how vets could be more proactive in working constructively within it.

The Kennel Club's Head of Health and Research will discuss balanced breeding decisions – population genetics, the evidence base for breed improvement, health schemes, DNA testing and breeding stock assessment.

Approved for 2
VCI CVE credits
