FIFTY SHADES OF BLUE CYTOLOGY

for small animal dermatology

Cytology is a very fast and affordable tool to help improve the outcome for dermatology patients. It is very much underused in many practices and this talk will give an introduction into choosing suitable patients and lesions, sampling techniques, staining the samples and interpreting the slide.

When: 2nd November 2017

Where: VSSCo, Lisburn

Time: 7.15pm with a delicious supper

Lecture by: Ariane Neuber - Talk begins at 8pm

Ariane completed her veterinary medicine degree at the University of Munich and after a spell in small animal practice returned to university to achieve her doctorate. Following an Internship at the Animal Health Trust in Newmarket, England, she moved to Scotland to take up the Senior Clinical Scholarship in Veterinary Dermatology at the Royal (Dick) School of Veterinary Studies in Edinburgh. During the first year of her residency she completed her Royal College of Veterinary Surgeons (RCVS) dermatology certificate in 2002 and in 2005 she passed her European Diploma in Veterinary Dermatology. Ariane runs a veterinary dermatology referral service, Derm4Pets. She has a particular interest in ears and allergies.

Current AVSPNI members —FREE of CHARGE, subject to attendance. A member who fails to attend, send a substitute or cancel by noon on the day of the meeting will be liable for a £15 charge .
