

Wednesday 28th October @ 8.00pm

All are welcome to join this Webinar!

Want to know more about **Regenerative Agriculture?**

- How can I promote habitat biodiversity within my grassland but avoid it being over-run with nettles, thistles and docks?
- Can regenerative agriculture correct any mineral deficiencies in grazing animals?
- How can regenerative agriculture solve animal health issues, increase yields and lower input costs?
- What is the difference between a holistic approach and regenerative agriculture?
- How can regenerative agriculture support the demands of rising population and food demands?

with Guest Speaker

Jonty Brunyee

Jonty Brunyee is passionate about regenerative farming, sustainable food and knowledge exchange, and has 25 years of experience in the sustainable farming and environmental sector. He is a National Trust farm tenant at Conygree Farm in the Cotswolds producing organic and pasture fed beef and lamb, and species rich grassland. Jonty won the NT Farming with Nature Award in 2017 and studied Rural Resource Management at Seale Hayne Agricultural College and Environmental Management at Sheffield Hallam. He worked as a farming and conservation adviser for organisations such as FWAG and the Peak District National Park and after 10 years in private consultancy he entered the world of higher education at the Royal Agricultural University as programme manager and senior lecturer in Farm Business Management. Jonty is an active member of the Pasture Fed Livestock Association and completed a Nuffield Scholarship in 2016 studying sustainable farming, travelling around the globe.

How to register?

To register, e-mail info@vetni.co.uk or use the registration link supplied with the email marketing for this webinar. You can also find the link on the VetNI calendar. Numbers of attendees are limited.

Please register no later than 12 noon on Tuesday 27th October.

Note: you will need a Zoom account associated with the e-mail address that you have supplied us to access this webinar. If you don't have one, it costs nothing and takes about 2 minutes to set up.

NIVA members - **free of charge**

Non-NIVA members, vets - £20

Everybody else (students, friends, spouses) - £10
