

AVSPNI GRADUATE DEVELOPMENT PROGRAM

SMALL ANIMAL

A Graduate Development Program (GDP) has been developed by AVSPNI to help new graduates transition into practice life as seamlessly and stress free as possible with CPD aimed specifically at the right level over a two-year period. AVSPNI hope this will ensure newly qualified vets' basic skills are concreted allowing them to grow and thrive in practice with confidence. (Graduates 2021+)

ULTRASOUND DAY WITH CONOR ROWAN

Tuesday 28th November 2023
9-5pm

CAFRE - Greenmount Campus

Sponsored by **IMV** and supported **VSSCo**

A full day of clinical CPD that is tailored and specifically designed for new graduates.

Session 1 – Getting used to the machines, what do the buttons do?

A very brief and pragmatic summary of how ultrasound machines work
What do the buttons do?
Which buttons should I be using during a scan?
Common (physics) artifacts and how to recognise them

Session 2 – Stabilising the unstable patient: what does TFAST and AFAST actually mean?

An overview of emergency scanning
What is our goal?
What can we achieve?
What do people mean when they say TFAST/AFAST
What are the limitations of lung ultrasound?

Session 3 – Things that go bump in the night: looking for splenic and hepatic masses and pyometras.

An overview of common liver and spleen pathologies
Assessment of abdominal effusion
Recognising pyometras

AVSPNI members: £ 120

Non members: £ 250

Places strictly limited to newly qualified vets (2021 Graduates +)

Fees must be paid in full before the event.
