Friday 29th November

Advanced Abdominal Ultrasonography – ‘Maximising your full potential – scan your way to success!’

NB: This is a non-practical course, theory and case discussion

This advanced veterinary ultrasound session is a theory and case-based interactive course, designed for clinicians who would like to take their skills to the next level. This will equip you with the knowledge needed to diagnose pathology and help with clinical decision making.

Speaker - Dr Mark Coia BVMS DipECVDI MRCVS
RCVS & EBVS European Specialist in Diagnostic Imaging
Venue – TBC

Thursday 13th June – 9.30-5.30pm

Don't forget! If you are coming to one of our small animal ultrasound scanning days, you will need to bring a dog to scan and practice on

Small Animal Radiography – ‘It's not all Black and White’ – Essential guide for small animal clinicians

This one day course is suitable for all Small Animal clinicians and will provide the theory and practical tools to give participants the confidence to examine and interpret straightforward and complex radiographic studies of cases which are commonly encountered.

Speaker – Dr Mark Coia BVMS DipECVDI MRCVS
RCVS & EBVS European Specialist in Diagnostic Imaging
Venue – Armagh City Hotel, Armagh, BT60 4FR

Thursday 14th March - 9.30-5.30pm
